Bring the pulp sword and planet adventure to life on Legendary Planet with a fully customizable universe and adventure path for classic characters. The fantastic world of Argosa is populated by a hundred new races and a gazetteer full of exciting new locations and adventures. Explore a new galaxy of pulp adventure as you search for allies, run for your life, and fight for your survival on the planet Atua. Are you ready to go on a long journey of adventure, danger, and fun? The year is 1195 and the world has changed forever. The characters in this adventure are not classed according to their actual classes in D&D, but instead are presented with the alternate stats for the Dungeons & Dragons 5E Monster Manual, as well as alternate modifiers for multiclassing. Players who have ever wondered what it would be like to create their own universe of fun and adventure may take their imagination to Legendary Planet in Fantasy Grounds, where they will be able to test their creative skills in full-3d virtual space. They may even discover they have a knack for storytelling! Whatever fantasy roleplaying is to you, Fantasy Grounds can help you bring it to life.
